

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: John Engels
DOCKET NO.: 03-27598.001-R-1
PARCEL NO.: 18-09-228-006-0000

The parties of record before the Property Tax Appeal Board are John Engels, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 57-year old, two-story dwelling of frame construction containing 2,339 square feet of living area with a full, unfinished basement, a fireplace, and a two car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. The appellant's map indicates one comparable is in close proximity to the subject and three comparables are three-quarters to one and one-half miles from the subject. The comparables are two-story frame and masonry or masonry dwellings that are 6 to 55 years old. One comparable has an unfinished basement and three comparables have no basements. Two comparables have central air conditioning and one comparable has a fireplace. Their living areas are from 2,120 to 2,665 square feet in size, and have improvement assessments of \$7.17 to \$8.26 per square foot. The subject property has an improvement assessment of \$10.86 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. In support of the subject's assessment, the board of review offered the property characteristic sheets and a spreadsheet detailing

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$4,523
IMPR.:	\$25,393
TOTAL:	\$29,916

four suggested comparable properties that are located on the same block or one block from the subject. The comparable properties consist of two-story masonry dwellings that are 56 or 57 years old with central air conditioning. Two comparables have full, unfinished basements; one comparable has a full, finished basement; and one comparable has a partial, finished basement. Two comparables have fireplaces. Three comparables have two car garages. The dwellings contain 1,889 to 2,144 square feet of living area and have improvement assessments ranging from \$10.98 to \$11.80 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of eight equity comparables. The appellant's comparable one, two, and four differed from the subject in foundation. Comparable three was significantly newer than the subject. As a result, they received reduced weight in the Board's analysis. The board of review's comparables were more similar to the subject in location, age, and physical characteristics and had improvement assessments of \$10.98 to \$11.80 per square foot and support the subject's improvement assessment of \$10.86 per square foot. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the most comparable properties contained in the record and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
